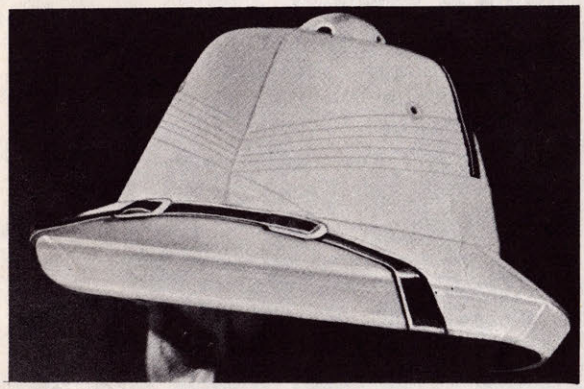
PITH HELMETS

WITH PITH CORK A FULL INCH THICK!



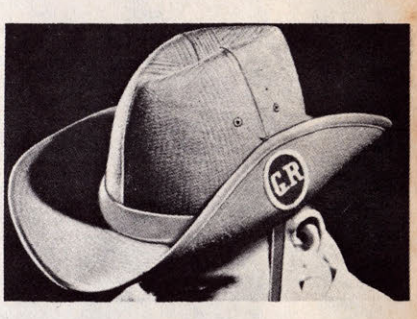
These old-fashioned squared Cavalry Pith Helmets have changed little in 100 years. Designed for comfort in the harsh burning Indian sun, this remarkable headgear is made from pith cork a full 1 inch thick (think of it), yet weighs only 10 ounces! Covered in traditional white fabric, helmets are lined with green cloth, have regimental leather strapping, vented peak etc. Imported from a prominent military outfitter in India, and brand new,

6.25 PPD.

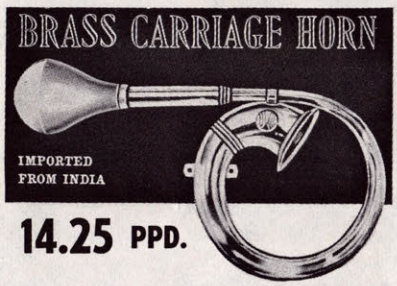
GURKHA BATTLE HATS

This is the hat made famous by the tough, wiry battle-wise Nepalese Gurkha soldiers who have served for pay in the Indian Army for 100 years. Designed for comfort and practicality (distinctive flared side brim to avoid interference with rifle barrel), this remarkable headgear weighs only 8 ounces! Traditional battle green cloth hats are beautifully stitched to hold their shape, have high vented peak for coolness, 3" wide brim, Gurkha insignia etc. Imported from a prominent military outfitter in India, and brand new, they'll keep anyone cool at work or play. Sizes 6⅞ to 7⅞.

6.50 PPD.



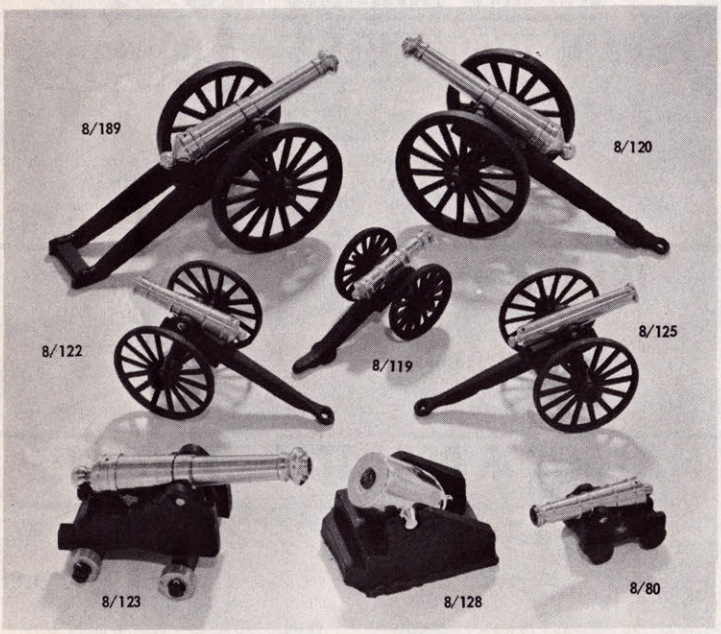
BRASS CARRIAGE HORN



14.25 PPD.

This famous continental bulb horn, first used on horse-drawn carriages in London at the turn of the century, is still making its strident voice heard in Bombay, India, where today it's used on both carriages and cars. On sports car, family hack or collegiate Model A, or on inboard or outboard, we'll guarantee its unique appearance and raucous bellow will attract as much comment as any horn made. Solid brass, and imported from India, it's a big 20" from bulb to curve, some 44" all around.

SCALE MODEL CANNONS



8/80 An accurate scale model of a Revolutionary War ship's carronade having a satin-finish solid brass barrel, mounted on heavy black iron carriage; indiv. dually boxed; weight 3/9 lb. each. **1.25 PPD**

8/128 A true miniature replica of a Civil War siege mortar; black solid iron base and polished brass finish barrel; individually boxed; weight 1-1/2 lbs. each. **2.75 PPD.**

8/123 A scale model of a Revolutionary War naval cannon; satin-finish heavy solid brass barrel mounted on a four-wheeled marially (broadside) black cast iron carriage with 4 solid brass free-moving wheels; individually boxed; weight 1-1/2 lbs. each **4.75 PPD.**

8/122 A miniature replica of a Revolutionary War field howitzer; satin-finish heavy solid brass barrel; mounted on black iron base with large black iron free-moving wheels; individually boxed; weight 5/8 lb. **2.50 PPD.**

8/125 SAME AS ABOVE WITH PLAIN BARREL

8/120 A true replica of the U.S. Army 12 pound "Napoleon" field cannon; satin-finish heavy solid brass barrel mounted on heavy black iron base with large heavy black iron free-moving wheels; individually boxed; weight 2 lbs. each. **4.50 PPD**

8/189 An authentic replica of the French doubleshafted "12 pounder" field gun used during the French and Indian War period; solid brass, satin-finish barrel on heavy black iron base with free-moving large black iron wheels; individually boxed; weight 2-1/8 lbs. each. **5.00 PPD.**

8/119 A scale model of the Mexican War light field piece. Black iron barrel and base with large black iron free-moving wheels; individually boxed; weight 5/16 lb. each. **1.25 PPD.**

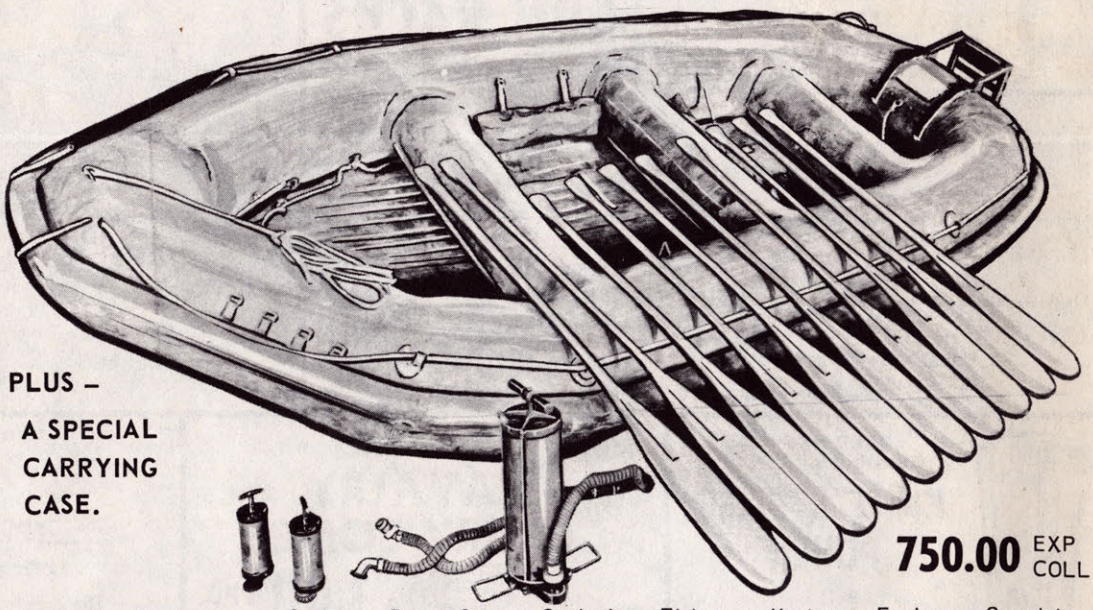
Length of shank 30", stock 29", Flukes 17", Weight 30 lbs.

29.95 EXPRESS COLLECT



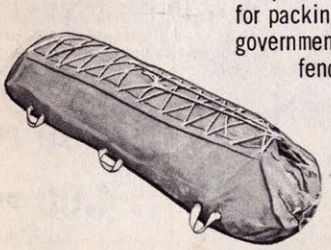
PLUS – A SPECIAL CARRYING CASE.

750.00 EXP COLL

Here is a special government-surplus buy for Government Agencies, Resort Owners, Geologists, Fishermen, Hunters or Explorers. Complete 15 Ft. x 7 Ft. 10 In. manually-inflated Landing Boat.

Manufactured by the Goodyear Tire & Rubber Co. of Neoprene rubber to rigid covernment specifications, each of these portable boats is constructed for extra long life and maximum safety. Packed in the original carton, each boat contains all of the original accessories and a special carrying case. Each has an outboard motor mount and built-in storage pockets.

Despite the fact that it inflates to a large size in less than 20 minutes a boat can be carried and handled by two men. It's ideal for packing into remote lakes or rivers, for fishing, hunting or vacation trips and resort use. Built for many many years of hard government service, these boats were designed for landings on rocky shores and coral reefs. Each boat has an inflatable rubber fender tube around the bow and along the sides to deflect rough waves out of the boat and for ease of handling.



We were able to get a limited number of boats, so sales must be made on a "first come–first served" basis.

SHIPPING EXPRESS COLLECT

Boats are shipped in original wooden cartons (approximate shipping weight, 600 lbs.) – or if you prefer, in the special carrying case only (approximate weight, 520 lbs.). Either way, the carrying case and all accessories are included.

YOUR NEW 1963-1964 CATALOG
From the house with the greatest variety and largest stock of genuine government surplus in America. Price 50¢

WE HAVE BEEN IN BUSINESS AND ACTIVELY OPERATING
SINCE THE END OF OUR MILITARY SERVICE OVER 15 YEARS AGO.

We travel by car to get down to earth and see this wonderful America. In 3 years we have clocked 170,000 land miles, (plus many thousands of air miles). We have visited almost every National Forest and Park, camping from Jackson Hole after traveling thru Yellowstone into Glacier National Park and thence onto the Road to The Sun, thence south into the southern wilds of untamed Utah and Capital Reef National Park thru Monument Valley and overnight on the Navajo Reservation!

We have criss-crossed east to west across the changing desert, the Rockies the plains and the cities to the New England states and we have learned that it is all wonderful fun.

Travel and camp within your budget. Your needs will change, your ideas will grow. Buy reliable merchandise, starting with a little less rather than a little more and your camping experience will be fun.

We guarantee our merchandise to be as represented. And we will be here to stand behind this guarantee. If we can be of help, write and send us a stamped self addressed envelope. We earnestly try to answer every inquiry, but some times the correspondence gets ahead of us, and we can only reply to those who have shortened the work by addressing and stamping their own mail.

We are specialists – specialists in THE ODD * THE UNUSUAL * THE INTERESTING OF GOVERNMENT SURPLUS. The government is a very particular buyer demanding and paying for the best down to counting the stitches per inch. Your buys of government surplus assure that you are getting this very best.

Our firm is known coast to coast, we aren't so big, but we specialize. We have supplied authentic accoutrements to Broadway stage plays, road shows, television, like Naked City. Several times a year we get our name in the paper as ODDITIES IN NEW YORK. The Army has bought cannon from us. We cater to the limousine trade and the flop house Fred who knows just where we keep the Louse Powder. U.S. Army Surplus, of course.

ITS OUR AIM TO PLEASE.

THE GREATEST VARIETY & LARGEST STOCK OF GENUINE GOVERNMENT SURPLUS IN AMERICA
